Management of the reserve list

The scholarship candidates on the reserve list can receive an EM scholarship only in case of withdrawal of a student from the main list. The replacement of a "main list" student by a "reserve list" one can be made only if s/he is replaced by the first eligible candidate on the reserve list.

In this particular case, attention should be paid to the EMJMD condition concerning the nationality of the reserve list candidate and to the rule regarding the presence of a maximum of three nationals from the same country among the scholarship holders for a given category of students (Programme / Partner Country).

In this case (i.e. there are already three other students with the same nationality on the main list), the consortium will have to take the next eligible candidate respecting its ranking list.
